## **DETAILED ACTION**

### ***Acknowledgment***

1. The petition for review by the office of petition has been approve.

### ***Allowable Subject Matter***

2. Claims 1-12 and 16 are allowed.
3. The following is an examiner's statement of reasons for allowance.

The prior art does not teach the inline skateboard as recited in claim 1, which includes a plurality of roller sets, each roller set having a plurality of rollers, wherein each roller set is fixedly coupled to an underside of a board to form a line of roller sets to allow the board to move backward and forward along a longitudinal axis of the aligned roller sets. The plurality of roller sets are longitudinally separated and spaced from each other toward the ends of the board, wherein the plurality of roller sets are substantially centered between lateral side edges such that lateral portions of the board edge extend laterally outwardly from the plurality of roller sets. Each of the plurality of roller sets has an outermost roller positioned toward one of the opposite forward and rearward ends of the elongated board. The inline skateboard also includes a brake member positioned adjacent to each of the outermost rollers such that pivoting the elongated board on one of the outermost rollers brings one of the brake members into contact with a supporting surface to bring the board to a stop using friction between the brake member and the supporting surface when the board is moving in a forward or a rearward direction. recitation, in combination with the rest of the recited elements, clearly defines over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
